

# Creating a new, community-centered Approach to Community Policing

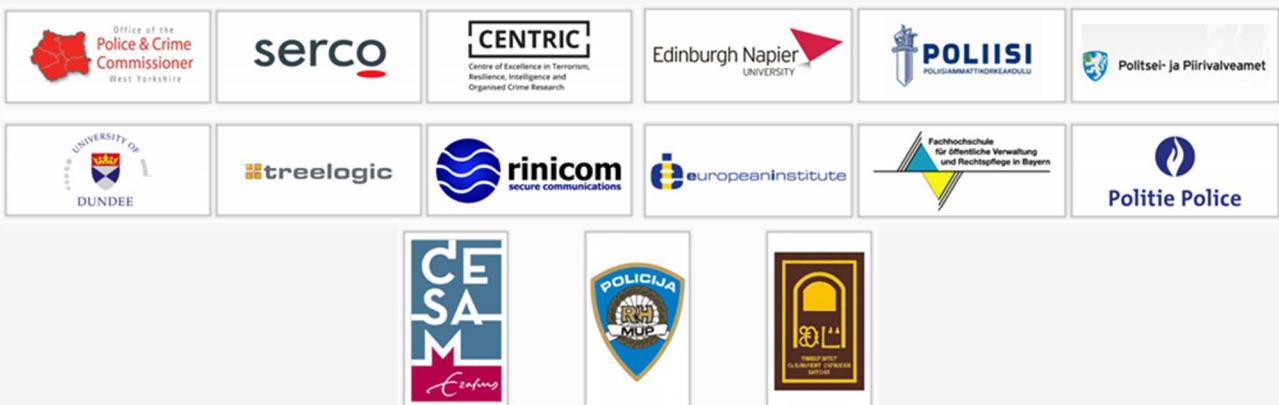

UNITY is a three-year, EU H2020 funded project on Community Policing across Europe.

The fundamental vision and end-user focus of UNITY is to strengthen the connection between the police and the communities, to maximise the safety and security of all citizens. To achieve this vision, UNITY is:

- capturing **best practices** for cooperation between police and citizens
- developing a **communications technology** to facilitate, strengthen and accelerate the communication between citizens and police
- designing, developing and delivering **training** for LEAs and **awareness raising** activities about Community Policing

The UNITY consortium brings together a rich mix of partners with the expertise and shared passion needed to enhance community policing efforts across the EU. The project combines both geographical and disciplinary diversity with its 16 partners spanning 10 different European countries: Belgium, Bulgaria, Croatia, Estonia, Finland, Germany, Macedonia, Netherlands, Spain and UK.
